

# Engineer Supervisor Cover Letter

86056 Lucy RouteBernierfort, MN 64929

**Dear Landry Thompson,**

I submit this application to express my sincere interest in the engineer supervisor position.

In my previous role, I was responsible for fault management on specific network nodes: point to point and point to multipoint microwave radio relays, SDH&DWDM MUX, ATMĐ switches.

Please consider my experience and qualifications for this position:

- Interpersonal / Customer Skills
- Experience of supervising a civils contract
- Bachelor of Science in Electrical, Mechanical or Industrial Engineering
- Expertise in heat exchanger manufacturing
- Working knowledge of roll forming, stamping, brazing processes
- Working knowledge of machine, tool, and die design
- Working knowledge of pneumatics, hydraulics, and electrical controls
- Partners with senior management to analyze and solve issues

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Azariah Reilly
