

Engineer Supervisor Cover Letter

966 Jonathon LandHarrisonburgh, CT 74744

Dear Bellamy Jacobs,

I submit this application to express my sincere interest in the engineer supervisor position.

In the previous role, I was responsible for sME inputs on communications including shipboard military and commercial radio frequency and network systems as well as embarkable systems.

Please consider my experience and qualifications for this position:

- Experience in world class Quality practices including LEAN Leadership methodologies, root cause analysis, preventative action deployment and quality function tools preferred
- Possess experience designing, building, maintaining, migrating, tuning, administering, supporting, and problem solving in complex server environments, working collaboratively with applications, network and systems teams to resolve problems
- Strong technical background, capable of working with different technologies
- ITIL knowledge and experience is preferred
- May drive or operate lifts
- Manufacturing environment with variable but moderately high noise levels (hearing protection recommended)
- Works with controlled substances and hazardous chemicals requiring safe handling and control measures
- No contact lenses, jewelry (rings, watches,) or make-up are allowed

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Brooklyn Oberbrunner
