

# Engineering Professor Cover Letter

6001 Schulist Views East Andres, OH 18898

**Dear Lennon Rodriguez,**

I am excited to be applying for the position of engineering professor. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for opportunities for student and graduate evaluation of curriculum, teaching and program effectiveness.

Please consider my qualifications and experience:

- Domain-appropriate research publications in internationally recognized journals and conferences
- Professional Licensure/Registration (PE)
- Research specialization in an appropriate, high-value sub-discipline of civil engineering or a related field, such as structures or materials
- Industrial, commercialization, or post-doctoral experience
- Research specialization in an appropriate, high-value sub-discipline of civil engineering or a related field, such as environmental, geotechnical, fluids/hydraulics, or transportation
- Experience with DNA delivery protocols
- Background in human centered design, design theory and methodology, creativity in engineering, bio-inspired design, design thinking, engineering education, or machine design
- Knowledge of industry design practices

**Thank you for considering me to become a member of your team.**

Sincerely,

Emery Sipes
