

Equipment Engineering Cover Letter

451 Bauch AlleyRiceview, NE 20606

Dear Tatum Weber,

In response to your job posting for equipment engineering, I am including this letter and my resume for your review.

Previously, I was responsible for the Dashboard for Data analysis and Reporting of Statistics Process Control (SPC), Trend Chart, Histogram and Overall equipment effectiveness (OEE).

My experience is an excellent fit for the list of requirements in this job:

- Proficiency in ACE and/or Design for Six Sigma is preferred
- Lead the engineering gap assessment, in collaboration with the manufacturing technology leader, between the lessons learned generated from either a project or a site and the approved design standards and engineering discipline requirements
- Support Manufacturing Line
- Design fixturing, diagnose and correct tooling
- Create documentation and store in EPDM vault system
- Create Maintenance documentation
- Create spare parts and documentation of production machinery
- Exceptional understanding of engineering principles related to high temperature design

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Dallas Gleichner
