

# Equipment Engineering Cover Letter

815 Norah Falls West Christopher, NE 15072-0390

**Dear Haven McCullough,**

I would like to submit my application for the equipment engineering opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for engineering leadership to develop the annual budget for Process Control Systems & equipment, maintenance and repair.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Understanding of automation systems, mechanical and control principles, background in mechanical engineering, robotics, PLCs, data collection systems
- Experience programming PLCs, SCARA robots, and articulated robots
- Working knowledge of data analysis, statistics, SPC
- Able to maintain organization and focus in a highly dynamic environment
- Is interested in career path of a project engineer
- Able to work independently, self-organized
- Willing and able to independently transition to and from the ground without the aid of a stationary object for support and sustain prolonged periods of standing and walking on hard surfaces steel grating, snow, ice and mud
- Timely and appropriate results orientation

**I really appreciate you taking the time to review my application for the position of equipment engineering.**

Sincerely,

Denver Gulgowski
