

Equipment Engineering Cover Letter

8223 Borer Field Bogisichtown, CT 26809

Dear Dylan Blick,

I am excited to be applying for the position of equipment engineering. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for key technical input for the definition of concepts for improvement of existing equipment and processes and/or the identification of alternative equipment or installations, and to ensure reliability of Production Unit process equipment, facilities and utilities;

Please consider my qualifications and experience:

- To support production equipment Line Maintenance and Preventive Maintenance
- Overall manage machine maintenance activity
- Train on machine technical & related instrument operation for technicians
- Work out safety inventory for spare parts control
- Continuous cost control
- Assemble and develop a 'Requirements' Document
- Perform Electrical Designs for Electrical/Mechanical Test Stands to include instrumentation wiring, data acquisition systems, signal conditioning circuit boards, PID Controller designs
- Create detailed drawings including 'Bill of Materials'

Thank you for taking your time to review my application.

Sincerely,

Tyler Lueilwitz
