Dear Robin Fadel,

I am excited to be applying for the position of equipment engineering. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for equipment related subject matter expertise for possible upgrades and changes to process equipment to improve reliability.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Initiative to learn HLF business and reason for initiatives
- Working knowledge of GMPs and other regulatory requirements
- Proficient with computer software including MS Outlook, Word , Excel
- Knowledge of materials/process/equipment
- Mechanical aptitude, understanding equipment and operation functionality to establish/challenge/optimize run rates/productivity
- Exposure to HACCP/AIB, CFR 21
- In depth knowledge and hands-on application / integration of technologies involving motion control, vision system integration, precision actuation, dispensing, precision fabrication, and other tools used in automation
- Experienced in systems integration

Thank you for taking your time to review my application.

Sincerely,

Morgan Hahn
