

# Equipment Engineering Cover Letter

1192 Luz Mountain O'Keefemouth, CA 56985

**Dear Emerson Trantow,**

I am excited to be applying for the position of equipment engineering. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for fixed equipment input to the unit reliability improvement process and other operational excellence processes.

My experience is an excellent fit for the list of requirements in this job:

- Request parts through Supply Chain
- Receive and kit purchased parts
- Provide assembly instructions to skilled labor force to assemble/construct designs
- Create 'Operation and Familiarization Manual' for Test Stand
- Create 'Acceptance Test Procedure' to insure Test Stand is designed/constructed to 'Design Requirements'
- Learn and fully understand the Novellus Concept I and Concept II block replacement process
- Research and investigate alternate or additional hardware needed to adequately perform the task
- Design, procure and facilitate the building of "A better way of performing the task", specifically the block leveling process

**Thank you for your time and consideration.**

Sincerely,

Story Rodriguez
