

Expert Software Engineer Cover Letter

7718 Shavonne VillagesRosenbaumside, CO 50284

Dear Corey Hartmann,

I would like to submit my application for the expert software engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for peer advisement to other Senior Software, Software and Associate Software Engineers, through code/design reviews and peer-programming efforts.

My experience is an excellent fit for the list of requirements in this job:

- Experience in multithreading and parallel processing programming
- Knowledge of the latest developments in the field of software technology
- Knowledge of enterprise frameworks, systems integration, software development and testing methodologies
- Solid design skills, including but not limited to OOP, SOLID, design patterns, architectural patterns
- Open-minded, proactive, solution finder, able to distinguish between pattern and the details
- Has experience designing for digital campaigns and web builds with an excellent understanding of the technical possibilities and outer limits of digital production
- Enjoys working in a team environment and contributing to the team's ideas
- Strong JavaScript (jQuery, Node.js and Angular), HTML5, CSS3, production and quality tools (LESS, SASS, Maven, Jasmine)

I really appreciate you taking the time to review my application for the position of expert software engineer.

Sincerely,

Emerson Herzog
