Expert Software Engineer Cover Letter

1615 Parker ShoresLake Lorie, TX 76685-5006

Dear Phoenix Crist,

I am excited to be applying for the position of expert software engineer. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for peer advisement to other Software and Associate Software Engineers through code/design reviews and peer-programming efforts.

Please consider my experience and qualifications for this position:

- Experience with consuming web REST APIs, Continuous Integration, Distributed Systems
- SQL or/and Oracle DB knowledge
- Data-Integration (XML, JSON, SOAP, JMS, JMock, AMF, Remoting)
- Unit Testing (jUnit) experience
- Knowledge of Design Patterns, OOP, modularity, performance optimization, MVC, MVP, Typescript
- Familiarity with Git and Git Flow
- Knowledge of performance considerations, cross browser testing, client side test driven development and responsive web design
- Strong solution provider mentality and start-up culture Enjoys creating new ideas and care about industry trends and developments

Thank you for considering me to become a member of your team.

Sincerely,

River Zboncak
