

# Field Technician Cover Letter

875 Mayer Rapids  
Kemmerstown, VT 91921

**Dear Denver Heidenreich,**

In response to your job posting for field technician, I am including this letter and my resume for your review.

In the previous role, I was responsible for customer service and/or troubleshoot hardware, software and network connectivity issues with customer laptops and desktops (where and when applicable).

Please consider my experience and qualifications for this position:

- Drilling and tapping
- Electronic bolt disintegrator
- Laser or optical alignment equipment
- Previous experience in security or alarm installation and maintenance
- Familiar with Inflow and Infiltration (I/I) investigations, overflows, manhole inspection, dye testing, CCTV, smoke testing, data collection, reporting and engineering knowledge
- Knowledge of sewer system field experience, knowledge of flow monitoring programs, knowledge of CCTV programs
- Operate computers, understand sewer system operation, enter manholes and sewers, lift 20lb objects, work in hazardous conditions (manholes, sewers, traffic)
- Be able to communicate with clients and other engineers

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Haven Reinger
