

# Finance & Strategy Cover Letter

97727 Heidenreich Canyon East Jesusa, NY 83113

**Dear Dallas Mraz,**

In response to your job posting for finance & strategy, I am including this letter and my resume for your review.

In my previous role, I was responsible for proactive root cause analysis for Business Units (BUs)/Segments and partner with COE to provide finance/accounting solutions.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- To present these business cases to senior stakeholders with clarity, brevity and insight
- To actively seek out opportunities to optimise revenue and cost, and challenge the business to deliver them
- Experience in supporting a major functional area with an organization, with subject matter expertise in accounting, financial analysis, headcount/resource management and business metric reporting
- Proven influencing skills at senior management levels of global organization
- Experience in supporting a major functional areas with an organization, with subject matter expertise in accounting, financial analysis, headcount/resource management and business metric reporting
- Experience with financial systems- Hyperion, Oracle, Business Objects, Salesforce.com application
- Experience in improving/advancing existing financial systems to improve data accessibility and flexibility
- Self-starter with commitment to learning and strong work ethic

**Thank you for considering me to become a member of your team.**

Sincerely,
