

Fixed Income Research Cover Letter

92110 Graham Lodge Rohanside, RI 64954

Dear Drew Lynch,

In response to your job posting for fixed income research, I am including this letter and my resume for your review.

Previously, I was responsible for fundamental credit analysis on existing holdings, primarily investment grade, within the industries assigned along with generating new investment ideas within these industries.

Please consider my experience and qualifications for this position:

- Familiarity and strong proficiency with Excel and PowerPoint
- Strong econometric and statistical skills
- Extensive experience creating charts and tables to summarize global economic data and in managing data resources
- Deep understanding of global economic and financial market issues
- Experience applying advanced statistical analysis
- Proficient in statistical analysis programs (Eviews, R, MatLab, SAS, SPSS, Stata)
- Proficient in Microsoft Excel (able to create and manipulate reports, graphs, custom formulas and pivot tables), Word and Powerpoint
- Experience doing careful data work

I really appreciate you taking the time to review my application for the position of fixed income research.

Sincerely,

Azariah Wilderman
