

Front End Software Engineer Cover Letter

863 Macejkovic IslandsShanamouth, SC 32175

Dear River Tromp,

I would like to submit my application for the front end software engineer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for technical guidance and strategy for the front end UI application for local and remote development teams.

Please consider my experience and qualifications for this position:

- Knowledge in JSP will be an added advantage
- Experience with Single Page Application and JavaScript frameworks such as React/Relay/Redux/GraphQL, Backbone.js, AngularJS or Ember.js
- Experience with CSS framework such as LESS, Sass
- Execute on multiple small and medium sized projects as assigned in a cross-functional environment
- Articulates the pros/cons of specific technology for with regards to the user experience of a given
- Development experience using current front-end frameworks like React, AngularJS, Ember.js
- Experience testing with systems like Jasmine, Mocha, Chai, Jest
- Understanding of cross-browser compatibility pitfalls and how to work around them

Thank you for your time and consideration.

Sincerely,

Emery Bashirian
