Full Stack Developer Cover Letter

6467 Cremin LandingWest Clemente, DE 21931-6436

Dear Max Medhurst,

I would like to submit my application for the full stack developer opening. Please accept this letter and the attached resume.

Previously, I was responsible for counsel and advice to top management on significant Application Development matters, often requiring coordination between organizations.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- End solutions for a high profile, enterprise Web application and code back
- End services in Python and front
- End in HTML, CSS3, and JQuery
- Development experience with AngularJS, NodeJS, SASS, CSS
- Able to participate with daily standup meetings that include business representation
- Experience with Windows and Linux operating systems virtualization
- Demonstrated track record of contributing successfully to the delivery of large and visible, high
- Demonstrate an understanding of how to design applications on the backend with OO techniques for ORM data access, authentication, security, and API design

I really appreciate you taking the time to review my application for the position of full stack developer.

Sincerely,

Lennon Stoltenberg
