

# Full Stack .NET Developer Cover Letter

41664 Greenholt Estates New Twanamouth, NC 11682

**Dear Justice Denesik,**

I would like to submit my application for the full stack .NET developer opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for status updates on work assignments and any technical issues that present risk to project timeline as required by selected project framework.

My experience is an excellent fit for the list of requirements in this job:

- Knowledge of the development lifecycle with proven commercial experience delivering projects on time and to specification
- Team player, able to work with cross-functional teams (Creative, Technical, Marketing & Project Management)
- Excellent self-organisation, self-motivation and time management
- Have excellent written and verbal communication skills, including being comfortable influencing others and working across regions
- CMS experience, Sitecore preferred
- Bug tracking, source control, continuous integration tools
- Unit testing, browser test automation (Selenium), load and performance analysis
- Web services experience, such as REST or SOAP

**Thank you for your time and consideration.**

Sincerely,

Emerson Sauer
