Dear Story Hauck,

I submit this application to express my sincere interest in the full stack .NET developer position.

In my previous role, I was responsible for comprehensive consultation to business unit and IT management and staff on all phases of application programming and processes for diverse development platforms, computing environments.

Please consider my experience and qualifications for this position:

- Cloud development or deployment using Azure or AWS
- NET programming (C# or C++)
- Object Relational Models (ORM)
- Distributed Version Control Systems (DVCS)
- Working experience as a .NET web developer
- Good knowledge of OOP and OOD, n-tier applications, distributed applications
- Enthusiasm, idealism, creativity and dedication
- Aggressive learner

I really appreciate you taking the time to review my application for the position of full stack .NET developer.

Sincerely,

Gray Kreiger
