

Full Stack .NET Developer Cover Letter

618 Joey PathRowestad, CO 77474

Dear Emerson Larson,

I submit this application to express my sincere interest in the full stack .NET developer position.

In my previous role, I was responsible for guidance on graphics, style sheets, and other design-oriented artifacts for integration into web applications.

Please consider my experience and qualifications for this position:

- Don't hesitate to ask for help or offer help when asked
- Requires practical understanding of continuous integration (CI) process and best practices
- Strong experience with Agile development processes, methodologies, and tools
- Able to communicate complex technical concepts to company stakeholders in an easy-to-understand manner Comfortable working independently and in a team environment
- Familiarity with code versioning tools such as Subversion
- Primary Strengths working with Microsoft stack (C#, ASP.NET, SQL Server)
- Solid Exposure with Java Development
- Expert-level expertise with ASP.NET MVC

Thank you for considering me to become a member of your team.

Sincerely,

Charlie Ferry
