Full Stack .NET Developer Cover Letter

167 Raynor HighwayJastborough, MN 33284

Dear Denver Jerde,

I would like to submit my application for the full stack .NET developer opening. Please accept this letter and the attached resume.

Previously, I was responsible for reporting and monitoring of global end-of-day net short positions and other notification requirements as well as critical position information used in regulatory disclosure reporting for downstream systems.

Please consider my qualifications and experience:

- Possess high standards and strive to write beautiful code
- Facility with contemporary languages, patterns, and architectures
- Strong knowledge of SQL (T-SQL)
- Experience with Agile methodology and Scrum practice
- Open-minded, appreciate direct feedback, and revel in intellectually rigorous environments
- Keen to have whole-problem responsibility
- Demonstrated project ownership, not just participation
- Breadth of experience with .NET, C#, HTML5, CSS3, Javscript, and relational database access

Thank you for taking your time to review my application.

Sincerely,

Parker Hickle
