Full Stack Cover Letter

9874 Bosco CourseNew Idaberg, MA 62923-9245

Dear Casey Stroman,

In response to your job posting for full stack, I am including this letter and my resume for your review.

In my previous role, I was responsible for technical support and consultation for java application and infrastructure questions.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with RDBMS systems (MS SQL Server, PostgreSQL, Oracle, MySQL)
- Experience with ALM suites (Atlassian preferred)
- Comfortable with JavaScript
- Groovy or Ruby
- Familiarity with cloud platforms
- Distributed Systems tools
- Experience in .NET and/or C# based applications
- Experience development in SQL (MS SQL preferred)

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Lennon Glover
