Full Stack Cover Letter

723 Larkin PortBrakusmouth, NE 87373

Dear Jordan Stokes,

I would like to submit my application for the full stack opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for recommendations to assist Regional Applications Portfolio Managers in setting the near-medium term direction, roadmaps and standards for technical, process, and/or infrastructure solutions, ensuring they align to the overall Architecture.

My experience is an excellent fit for the list of requirements in this job:

- Experience deploying to public or private clouds such as Amazon Web Services (AWS), Microsoft Azure, Openstack, Rackspace or similar providers
- Experience with use of Agile development methodologies
- Experience in Natural Language Processing and Cognitive Computing applications
- Experience in Big Data Technologies and data mining tool kits such as R, SAS and SPSS
- Experience in building machine learning algorithms and classification models
- Passion - we look for people who love what they do!
- Craftsmanship - create high quality code with good design concepts that is easy to maintain
- A get-things-DONE mindset, Ship early, ship often, fail fast

Thank you for considering me to become a member of your team.

Sincerely,

Emerson Sipes
