

# Full Stack Cover Letter

6416 Donnell CrescentWizaborough, MO 12075

**Dear Landry Rolfson,**

I submit this application to express my sincere interest in the full stack position.

Previously, I was responsible for preventative maintenance, troubleshooting and quickly resolve problems to ensure infrastructure and application stability.

My experience is an excellent fit for the list of requirements in this job:

- In-depth knowledge of current technological trends, developments, and best practices
- Competent in Windows & Linux based machines
- Track record of building, delivering and maintaining UI applications
- Knowledge and experience with Agile software development practices
- Strong understanding of Microsoft .NET technologies (specifically ASP.NET and C#) and/or LINQ, IIS, SQL Server, Visual Studio .NET, XML, HTML, CSS, and Javascript
- Willingness to work on both front-end and back-end, depending on the business needs
- Good working knowledge of Unix/Linux based systems, APIs and shell scripting
- Knowledge of distributed systems/algorithms, WebServices, Multi-threading

**Thank you for taking your time to review my application.**

Sincerely,

Dallas Klein
