

Game Developer Cover Letter

28728 Prosacco Drive
Jimmiefurt, NH 60121-3702

Dear Ryan Daugherty,

I would like to submit my application for the game developer opening. Please accept this letter and the attached resume.

Previously, I was responsible for timely and accurate technical support and solutions for all Unity's deployment platforms and a huge variety of application types.

Please consider my experience and qualifications for this position:

- Experience with scripting languages such as VB Script or others
- Experience with PC system assembly and troubleshooting
- Very strong aptitude for problem solving
- Works effectively both independently and in a team environment
- Understanding of computer architecture and key Operating System concepts
- Previous game development experience and knowledge of game development technologies
- Prior experience working with artists and designers
- Extensive development experience with servers, networking, multithreaded programming, and/or scalable back-end services

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Armani Homenick
