

Geology Cover Letter

639 Wilfred Mills Port Greggberg, AK 42028

Dear Parker Schroeder,

Please consider me for the geology opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for expert advice to ensure that best practice geological knowledge is applied site wide.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Provides support and assistance with specific technical studies and evaluations for Assets, JVs and Business Development opportunities
- Provides support and assistance in best practices deployment for different operating assets and JVs
- Provides support and assistance with compilation and governance activities regarding the Reporting of the Minerals Americas Mineral Resource and Ore Reserves
- Participation in M&A opportunities with regard to geological data management and resource evaluation tasks
- Specialization in Geostatistics, Geological Modelling and/or Grade Estimation
- Proven experience in modelling and estimation of copper porphyry deposits, preferably with expose to other copper deposit types and other commodities
- Demonstrable understanding of geological modelling and geostatistical estimation techniques in the process of resource modelling and estimation
- High level user of typical resource evaluation and estimation software packages (Vulcan, Leapfrog, Acquire, etc,) used in the data management, geological modelling and estimation of mineral deposits

I really appreciate you taking the time to review my application for the position of geology.
