

# Geophysicist Cover Letter

28403 Renner Canyon Stoltenberg Chester, AK 99571-1715

**Dear Tyler Kemmer,**

I would like to submit my application for the geophysicist opening. Please accept this letter and the attached resume.

Previously, I was responsible for advice on geophysical acquisition practices, data interpretation and reporting guidelines and standards, in pre-project and post project meetings and other discussions or meetings as required;

My experience is an excellent fit for the list of requirements in this job:

- Proficiency with Landmark Decision Space interpretation software, Hampson Russell, Transform and ArcMap
- Documented experience and proficiency with acquiring, processing, and classifying AGC data
- Proficient with current guidance for conducting munitions response geophysical surveys (e.g., EM200-1-15)
- Proficiency in geologic assessments for the oil and gas industry or CO2 storage and utilization programs
- Proficiency with complex logging suites, including open-hole triple combo, cased-hole PNC/CBL, image logs, geomechanical logs, temperature log
- Working knowledge of complex structural geology, carbonate sedimentology and sequence stratigraphy
- Mentoring of junior staff in technical details and also in overall data gathering, assessment, and analysis
- Demonstrated record of hands-on industry experience in seismic processing (2-D/3-D) in support of upstream oil & gas operations

**Thank you for taking your time to review my application.**

Sincerely,

Baylor Keeling
