Global Architect Cover Letter

8536 Isobel JunctionWest Devin, KS 95524

Dear Ryan Cole,

I would like to submit my application for the global architect opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for iT and operational infrastructure security analysis and guidance to secure Cloud Operations infrastructure and services operating under various regulatory frameworks like PCI, HIPAA, or GPDR.

Please consider my experience and qualifications for this position:

- Participate as a subject matter expert on cross-functional problem resolution teams
- Extensive background in solution architecture of diverse software solutions
- Experience with various integration methodologies, such as XML, web services, queues, APIs, CSV, SAP IDOCs , X12 EDI, ETL
- Exposure to application and/or infrastructure technologies (including BI , visualization, discovery, broadcasted, self service toolsets, master data management, data quality, database performance tuning, network components, clustering, data center delivery,) commonly leveraged to support large-scale, multi-platform enterprise environments and distributed systems across diverse geographies
- Proven experience developing strategic solutions
- Passionate about technology, process and people
- Provide support after normal work hours when necessary
- Record to Report (which includes FP&A)Processes and Solutions

I really appreciate you taking the time to review my application for the position of global architect.

Sincerely,

Skyler Wehner
