

Global Information Security Cover Letter

76544 Marlin WaysGretachester, AL 39910-5991

Dear Jordan Greenholt,

In response to your job posting for global information security, I am including this letter and my resume for your review.

In the previous role, I was responsible for security expertise, technical leadership, and assistance to Business Analysts, Network Technicians, Systems Architects, and software development teams.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience working with or managing Splunk tools
- Experience managing SIEM solutions (Splunk, ArcSight, Qradar)
- Solid foundational understanding of networking concepts (TCP/IP, LAN/WAN, Internet, network topologies)
- Solid foundational understanding of major operating systems (Windows, OS X, Unix/Linux)
- Experience with LDAP and other Directory Technologies
- Experience with Single Sign On (SSO) and Multi-Factor Authentication (MFA)
- Programming and Scripting Skills (Perl, Python, Shell)
- IP based networking and protocols (OSI, TCP, UDP, HTTP)

Thank you for taking your time to review my application.

Sincerely,

Greer Waelchi
