

# Hacker Cover Letter

43922 Friesen CanyonNorth Sharon, IL 29604

**Dear Morgan Vandervort,**

I would like to submit my application for the hacker opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for accurate reports to project teams and management on technology security matters.

My experience is an excellent fit for the list of requirements in this job:

- Experience with digital platforms and digital product development
- Hands-on experience with the core digital toolset, including Google Analytics and the Adobe marketing suite
- Able to communicate effectively (written and verbally) with audiences at all levels of seniority and technical knowledge
- Able to lead cross-functional teams, both as direct reports or within a matrix environment
- Project management skills with a passion for teamwork and collaboration
- Self-starter able to deliver high-quality results while working in a fast-paced "startup within a public company" environment
- Experience developing interactive experiences
- Aptitude for picking up new languages, as the job requires

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

River Rau
