

Health Educator Cover Letter

6459 Shalonda RapidSouth Benedictmouth, IN 71611-5563

Dear River Cronin,

In response to your job posting for health educator, I am including this letter and my resume for your review.

In my previous role, I was responsible for individual, group, case management and family-based interventions for Adult / Child/ Teen MH, AMRS and dual-diagnosis services for school age, adolescent and adult patients based on experience.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Strong program/project coordination skills
- Excellent computer skills in data entry, reporting, and the full Microsoft Office Suite
- Familiar with organizations, institutions, health care environment, local municipal systems and services in this area
- Previous or recent experience working in the intervention community, preferably on health issues
- Prior Patient Navigation or case management experience
- Highly motivated and innovative, requires minimal supervision
- Familiarity and comfort interacting with diverse populations
- Professional leader with strong communication skills

Thank you for your time and consideration.

Sincerely,

River Kerluke
