Dear Tyler Johnson,

Please consider me for the health professional opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for mental health assessment, diagnosis, and brief evidenced-based psychotherapy usually lasting from 1-6 visits per episode (may have a higher number of total visit with individuals on medication assistant treatment regimen) of care to Primary Care patients with mental health and addictions problems across the lifespan.

My experience is an excellent fit for the list of requirements in this job:

- Partner with EHS to analyze safety and health data including first aids, safety concerns, near misses, and accidents
- Promote a zero-injury culture in daily interactions with employees and management through stretching program and serving as a member of the safety committee
- Provide first aid care for employees, when necessary
- Deliver targeted training across the US manufacturing sites around workers compensation, ergonomics risk analysis, OSHA recordkeeping, and wellness program

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Ari Mayer
