Dear Armani Bailey,

I submit this application to express my sincere interest in the home health RN position.

In my previous role, I was responsible for home health agency with complete referral information to ensure timely, appropriate care, and to enhance relationships between the agency, residents, families, physicians, and referral sources.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Visualize all medications the patient is currently using in order to identify any potential adverse effects and drug reactions, including ineffective drug therapy, significant side effects, significant drug interactions, duplicate drug therapy and noncompliance with drug therapy
- Instruct patients on how and when to take the medications and the purpose for each drug as indicated
- Identify discharge plan at admission reflecting the patient/care giver (cg) responsibilities during services and after discharge
- Demonstrate knowledge of reimbursement rules, restrictions and benefits as they relate to planning care
- Participate in team conferences for care planning and evaluation
- Teach the patient and/or family members all aspects of care promoting full participation as able
- Perform technically precise interventions in accordance with best practices
- Ensure that physician orders are present for all services

Thank you for considering me to become a member of your team.

Sincerely,
