Dear Reese Brakus,

I submit this application to express my sincere interest in the hyperion administrator position.

In the previous role, I was responsible for database and systems administration support for software deployment operations, data migration and conversion, and other critical production operations support activities as required.

Please consider my qualifications and experience:

- EPM Web architecture and infrastructure knowledge
- Experience with DR Architecture and proven/deployed solutions
- Working knowledge on Financial Planning, Budgeting and Forecasting process and functions
- In-depth product knowledge with very strong business and technical expertise
- Advanced knowledge of HFM Rule functionality (Planning and Essbase experience preferred)
- Experience developing, testing, debugging and implementing complex business rules
- Experience developing and managing Financial Reports
- Understanding of other technology such as VBA and SQL

Thank you for your time and consideration.

Sincerely,

Avery Jerde
