

Identity & Access Management Analyst Cover Letter

5078 Rowe PlainBlandaburgh, AZ 81559-1067

Dear Tyler Padberg,

I submit this application to express my sincere interest in the identity & access management analyst position.

In the previous role, I was responsible for additional support for the Active Directory environment and other infrastructure used in Identity Management.

Please consider my experience and qualifications for this position:

- Experience in design, implementation, configuration, troubleshooting and tuning Identity Access Management (IAM) products like CA Single Sign-On (Siteminder), Microsoft Identity Manager, Okta
- Experience with system audit, profile review, internal and external regulatory controls to include PCI, SOX and Nevada Gaming Control Board is preferred
- Requires a strong understanding of security controls in a Microsoft Windows environment to include operating systems, folders and share drive management
- Strong business and technical skills in the planning, administration, and management of information systems, operational and technical security controls and security risk analysis and management
- Strong experience with Data Loss Prevention tools
- Experience administering policies, rules, and content
- Strong background in IT environment and electronic data management
- Strong Microsoft Windows server-class OS and commands

I really appreciate you taking the time to review my application for the position of identity & access management analyst.

Sincerely,

Gray Johns
