**Dear Dallas Koch,**

I submit this application to express my sincere interest in the identity & access management analyst position.

In my previous role, I was responsible for moderately complex day to day analysis and support for security monitoring, troubleshooting, configuring, reporting, implementing, installing, and upgrading Battelle's identity and access infrastructure.

Please consider my qualifications and experience:

- Working knowledge of compliance and regulation standards such as NIST
- Fundamental knowledge of MS Outlook, Word, Excel, Visio, and PowerPoint
- IT security certifications (CISSP or CISM preferred)
- Demonstrated success in efficient collaboration across organizational boundaries
- Proficiency with Microsoft Office with emphasis on PowerPoint, Excel and Visio
- Proficient in MS SQL and MS Access
- Preferred Other Working knowledge in the policy and regulatory environment of information security
- Intermediate Other Knowledge of IT Risk Standards, User Access Management Policies and Identity Access Governance Segregation of Duties

**I really appreciate you taking the time to review my application for the position of identity & access management analyst.**

Sincerely,

Shae Gutkowski
