

Identity & Access Management Analyst Cover Letter

79589 Franecki ViewCummingsborough, RI 97577-9849

Dear Blake Towne,

In response to your job posting for identity & access management analyst, I am including this letter and my resume for your review.

In my previous role, I was responsible for appropriate technical and operational input to the sourcing and procurement of security infrastructure hardware and software purchases, services, and maintenance contracts, etc.

Please consider my experience and qualifications for this position:

- Define and document requirements for data elements to include in IdentityIQ
- Define and document requirements for ensuring effective and efficient certification results
- Test results against requirements for accuracy and effectiveness
- Experience with Identity Access Management tools (Identity IQ, SailPoint, RSA Avesa, CA Identity Manager, Microsoft FIM)
- Working knowledge of Microsoft Excel or Microsoft Access
- Active Directory knowledge (profiles, rights)
- Basic knowledge of SQL or other database languages
- Identity and Access Management Sr

I really appreciate you taking the time to review my application for the position of identity & access management analyst.

Sincerely,

Denver Boehm
