

# Identity & Access Management Analyst Cover Letter

606 Emmerich StreamCronaside, HI 18821

**Dear Denver Howell,**

In response to your job posting for identity & access management analyst, I am including this letter and my resume for your review.

In my previous role, I was responsible for a proactive approach to O365 and supporting infrastructures (including cloud and on-premises directory and messaging services) to ensure the highest levels of systems and infrastructure availability, performance and security.

My experience is an excellent fit for the list of requirements in this job:

- Preferred Intermediate Other IAM software such as SailPoint, Oracle etc
- Manage the IAM call flow and resolution processes
- Document IAM Technical architecture, interfaces, IAM Application, IAM scripts, IAM database table
- Experience designing and implementing Privileged Access Management (PAM) solutions such as CyberArk for enterprise organizations
- Oracle Identity and Access Management experience is strongly preferred
- IAM Preferable within programs for environments that contain highly sensitive data
- Prioritize workflow and determine solutions
- Experience with Active Directory, Kerberos, SAML

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Sutton Collins
