

Identity Administrator Cover Letter

5260 Damon ExtensionsPort Ismaelberg, MA 81903

Dear Story Nienow,

I am excited to be applying for the position of identity administrator. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for subject matter expertise in the design, development, testing, implementation, and integration of Identity and Access Management (IAM) systems and solutions.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Ideally, has participated as a technical resource in AD deployments or migrations for small or medium size businesses
- Some experience with Office 365 is desirable, strong powershell scripting skills is highly desirable
- Professional certifications including ITIL, project management, and business analysis are highly desirable
- Microsoft Server Administrator (MCITP)
- Check Certificate Services for new Root/Intermediate Certificate Issuances and notify Service Manager
- Review SCOM Alerts for expired Certificates, notify and coordinate resolution with system owners for all Enterprise Assets/Services
- Verify that all OCSP and EDMS web services are available and running
- Managing Group Policy (GPO) creation and modifications

Thank you for taking your time to review my application.

Sincerely,

River Jerde
