Dear Justice Homenick,

I am excited to be applying for the position of identity engineer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for senior level expertise to the Identity & Access Management (IAM) team and INTL FCStone BIS department.

Please consider my qualifications and experience:

- Thorough understanding of Healthcare related business processes and common Identity Governance challenges in this industry vertical
- Familiarity with Java, XML, LDAP, SQL is desirable
- Understanding of web services technologies such as SOAP, REST
- Passion for designing and building highly available distributed systems at scale
- Knowledge in Java and scripting and RDBMS
- Exercises judgment on determining the best manner and means to accomplish objectives
- Provides oversight, insight, and guidance in the technical direction for Active Directory solutions, problems and/or related technical matters
- Leads technical efforts (from small to enterprise scale projects) in analysis, planning, design, development and implementation

Thank you for taking your time to review my application.

Sincerely,

Tatum Hintz
