

Implementation Manager Cover Letter

814 Quigley FordsJonistad, MD 06237

Dear Sutton Muller,

Please consider me for the implementation manager opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for product installations for all applicable electronic banking products for new and existing Fiserv clients.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Requires proficiency with business system design/ modeling, documentation and analysis techniques, and testing methodologies
- Business Systems Analyst or Project Management Certification
- Experience with software integration and analytics or experience with either hardware for Track & Trace (RFID, cellular, BLE)
- Strong communication skills to interact with customers and business stakeholders
- Proficient at problem solving and identifying customer requirements
- Prefers previous involvement in leading large scale implementation for hospitals with additional organizational or project leadership experience
- Experience in implementing CPOE systems and Advanced Clinicals
- Individual should prefer an environment of discovery and uncertainty

Thank you for considering me to become a member of your team.

Sincerely,

Marion Senger
