

Implementation Cover Letter

5056 Mac Tunnel Reingerburgh, MO 19524

Dear Shiloh Leannon,

I submit this application to express my sincere interest in the implementation position.

Previously, I was responsible for input into the development of a strategy for iPas enhancement in alignment with the business needs and overall PDG systems strategy.

Please consider my experience and qualifications for this position:

- Professional-level C++ programming experience in a Linux environment
- Able to prioritize workload and provide direction on the work priorities of subordinate Engagement Managers
- Agile development methodology experience is preferred
- Knowledge of contract and vendor negotiation
- A demonstrated knowledge of Wireline & Optical Fibre transmission
- A demonstrated Financial acumen
- Understanding and familiarity with technical concepts and functionality
- Experience within a implementation department

Thank you for your time and consideration.

Sincerely,

Finley Poulos
