Dear Riley Hammes,

I am excited to be applying for the position of industrial design. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for strategic guidance to Departments/Business Units in the design and evaluation of Privacy and Data Protection related tools and projects (e.g., privacy-by-design).

My experience is an excellent fit for the list of requirements in this job:

- Demonstrated skills with 2d and 3d design tools such as Solid Edge, Pro-E, Solidworks, NX, Teamcenter, Adobe CS, Corel, KeyShot
- Great concept sketching and ideation skills
- Human Factors (Working Knowledge)
- Strong awareness of global design trends
- Strong problem solving skills—program constraints and requirements can be complex and require innovative solutions
- Strong understanding of manufacturing, materials & processes
- Organizational skills (able to set a plan to reach final deliverables)
- Create conceptual designs (user friendly ergonomics, interior architecture, improved HMI) with problem solving solutions

Thank you for considering me to become a member of your team.

Sincerely,

Landry Littel
