

Industrial Maintenance Technician Cover Letter

51832 Zemplak Trail
Pandora, MO 64575

Dear Indigo Boehm,

I am excited to be applying for the position of industrial maintenance technician. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for work direction to other company personnel and contract personnel at job site, particularly in respect to safety procedures and work to be done that day.

Please consider my experience and qualifications for this position:

- Knowledgeable of applicable safety requirements, codes and 'best practices'
- High school diploma with Technical or vocational school
- Awareness of working with flammable chemicals and aerosol pressurized containers
- Strong reading comprehension skill set to read and interpret documents such as operating and maintenance procedure manuals, compliance regulations, safety rules, and online training
- Frequent lifting, pushing, pulling and moving of heavy equipment up to 75 pounds
- To perform general preventative maintenance, reactive maintenance and repairs of all conveyors, production equipment and building-related equipment
- Electrical - Performs trouble-shooting and needed tasks involving low and high voltage electrical and control systems of 480 volt devices (AC and DC), including repair or replacement of system components
- Understand electrical, mechanical, pneumatic, fluid power and control systems

Thank you for taking your time to review my application.

Sincerely,
