

# Industrial Maintenance Technician Cover Letter

554 Hyatt Road East Gildabury, WA 24342-8207

**Dear Quinn Rempel,**

I submit this application to express my sincere interest in the industrial maintenance technician position.

In my previous role, I was responsible for procurement team with bids from multiple qualified subcontractors, lead safety meetings/pre-start briefs, mitigate safety concerns, oversee subcontractor's work to ensure safety, quality, and job completion.

My experience is an excellent fit for the list of requirements in this job:

- Experience using CBT, MS Office, Excel, Outlook, Word SAP
- Communicate effectively and professionally with peers, management and outside vendors
- Previous experience in a large industrial maintenance environment preferred
- Previous electrical experience preferred
- Hazardous Chemicals (HAZWOPER Training)
- Lock Out Tag Out, Line Break, Confined Space Entry
- Electrical Equipment (24vdc – 480vac 3ph)
- Pumps (centrifugal, gear, diaphragm)

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Quinn Wilderman
