I am excited to be applying for the position of informatica. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for informatica system administration and improve the design of existing Informatica mappings.

My experience is an excellent fit for the list of requirements in this job:

- Working knowledge of schedulers such as Autosys or Control M
- Knowledge of health insurance industry (desirable)
- Knowledge of process stabilization, performance analysis, code optimization and testing of data-engineering products
- IT experience in support of human resource processes such as employee data management, organizational structure management and compensation would be an advantage
- Knowledge of systems development cycles and methodologies
- Knowledge of HCM system integration points with payroll, benefits, ATS and other third party applications
- Informatica Administration for PowerCenter versions 8.x.x and 9.x.x, 9.6 BDE (big data edition,nice to have) in Grid and Active/Passive cluster environments
- UNIX (Solaris and LINUX) scripting and good knowledge of the system to support PowerCenter server infra-structure

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Parker Turcotte
