

Information Management Specialist Cover Letter

276 Metz PrairieEast Lucio, OK 24486-6210

Dear Finley Fay,

I submit this application to express my sincere interest in the information management specialist position.

In the previous role, I was responsible for remote support, including installing and upgrading software, implementing file backups, installing anti-virus software, and configuring systems and applications.

My experience is an excellent fit for the list of requirements in this job:

- Define architectural building blocks for detailed design and implementation phase
- Experience on Cloud based Big data solution implementations and architectures
- IT Strategy development and implementation
- Strong understanding of big data technologies, experience working in and troubleshooting large distributed systems (Cloudera)
- Experience working with large scale Software Defined Storage solutions
- Hands-on experience managing and optimizing an environment that includes technologies such as Spark, Kafka, Redis, Zookeeper, Solr, Cassandra / CouchDB / other NoSQL database/Impala/Flume and Sqoop
- Experience with monitoring technologies big data backup strategies, and complex virtualization environments
- Experience administering (Backup, Restoration, Sharding) databases and data services

Thank you for considering me to become a member of your team.

Sincerely,

Finley Carter
