

Information Management Specialist Cover Letter

8497 Corwin Row South Clementstad, HI 13163

Dear Blake Connelly,

In response to your job posting for information management specialist, I am including this letter and my resume for your review.

In the previous role, I was responsible for information systems equipment support to a group of computer specialists engaged in the application of standard software programs, including but not limited to the following:.

My experience is an excellent fit for the list of requirements in this job:

- Hands on experience in deploying patches/hotfix
- Experience in Administration and configuration of CyberArk Privileged Account Security Solution covering Enterprise Password Vault, CPM, PVWA, PSMP, PSM, SSH Key Manager, AIM for version 9.1 and above
- Experience in design & implementation of Safe creation and User management for Enterprise Password Vault
- Hands on experience in the deployments & configuration of Privileged session management (PSM) and Privileged session management proxy(PSMP)
- Extensive troubleshooting knowledge on User issues while logging in to PVWA and using PSM secure connect
- Experience with creation and execution of PowerShell scripts
- Implementation of internet services including such as IIS/Apache web servers, DNS with bind, DHCPD, LDAP, Apache, Tomcat
- Demonstrated experience in Python, SQL, TOAD, SAS, Tableau

I really appreciate you taking the time to review my application for the position of information management specialist.

Sincerely,

Dylan Dicki
