

Information Systems Analyst Cover Letter

4754 Carrol WellTomiburgh, MS 83751

Dear Emerson Wiza,

In response to your job posting for information systems analyst, I am including this letter and my resume for your review.

In the previous role, I was responsible for subject matter expertise to senior management on a broad range of information security standards, best practices, and compliance requirements.

My experience is an excellent fit for the list of requirements in this job:

- Demonstrated skills and knowledge of UNIX shell scripts, perl and applescript and command line file editing
- Advanced experience with an MRP system -- SAP preferred
- Advanced Microsoft Office Suite application knowledge including proficiency with using VBA in these applications
- Advanced SharePoint knowledge
- Eagerness to dive into the data to solve the questions that drive the business forward
- Familiarity with Merchandising, Manufacturing, and Supply Chain best practices highly preferred
- Requires exceptional written and verbal communication skills to interact with various departments and to explain complex system issues to user groups
- Hands-on configuration, management and design experience with VMware Horizon 6.0 or higher

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Tyler Morar
