

Information Systems Analyst Cover Letter

996 Tatum Lodge West Catina, CA 92450

Dear Sam Mohr,

I am excited to be applying for the position of information systems analyst. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for input and assists the Director of IT to implement Best Practices as defined and champion ongoing process improvement initiatives to implement best practices.

My experience is an excellent fit for the list of requirements in this job:

- Familiar with state-of-the-art office software including Micro-Soft Office programs
- System administration experience of SAP-HR or SuccessFactors systems strongly preferred
- Understanding of HR processes and data including understanding of HR system database design, structure, functions and processes, and experience with database tools
- Advanced knowledge in organizational operations and clinical process improvement
- In-depth understanding of clinical situations based upon practical and theoretical knowledge
- Advanced knowledge of clinical information systems
- Experience with end user acceptance testing
- Strong willingness to learn and participate in software development life cycle interfacing with non-clinical teams

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Sawyer Thiel
