

Information Systems Specialist Cover Letter

8176 Shaunte HillsPort Anthonymouth, CA 59039

Dear Justice Cartwright,

I submit this application to express my sincere interest in the information systems specialist position.

Previously, I was responsible for real time problem determination support for all dependent business applications Analyze dumps, traces, and logs in order to determine root cause of specific problem;

My experience is an excellent fit for the list of requirements in this job:

- Possess in-depth knowledge in area of applied specialty
- Knowledgeable regarding FDA GxP and 21 CFR regulations and understand software system validation
- Knowledge of Neri, Schubert, Bausch and Strobel, Pester and/or Uhlmann equipment
- Experience with Werum Pas|X
- Submits ISD Account Requests and ISD Service Request forms to plant management for approval for all plant level hardware, software and service related issues
- Works closely with the Corporate ISD Plant Coordinator to ensure all new and used computer systems are set up within the corporate standards set by ISD
- Administers and delivers (plant) network accounts to end user
- Configures and updates computer equipment to ensure corporate security measures are being met

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

River Wisozk
