

# Information Systems Cover Letter

12755 Witting GreensAurelioville, TX 27437-1661

**Dear Justice Stroman,**

I submit this application to express my sincere interest in the information systems position.

In my previous role, I was responsible for recommendations regarding remediation and mitigation of identified vulnerabilities by developing plan of action and milestones (POA&Ms).

My experience is an excellent fit for the list of requirements in this job:

- Is a critical thinker and possesses an analytical mind
- Executes all job responsibilities and assignments promptly, reliably, and ethically
- Flexible and adaptable, functions well as a team player, remains calm and cheerful under stressful conditions, is comfortable working with diverse skill sets and personalities
- General knowledge of several areas of IT
- Experience managing and administering IT platforms, ERPS, and cloud based partnerships
- Strong Windows system administration skills
- Git is being used provide version control for Ansible playbooks
- Some knowledge and experience with vSphere, RHEL7, Windows Server, TLS certificates, IPAM, Active Directory, and networking will help the contributor add value to the project

**Thank you for your time and consideration.**

Sincerely,

Briar Schoen
